Who are we?

The Junior Chamber is a worldwide association of volunteers from 18 to 40 years of age.

It is present on all continents and conducts projects in 94 countries.

It consists of nearly 5'000 local organisations and more than 200'000 active members.

Locally, the JC consists of commissions working on diverse themes in society. Each commission dedicates itself to addressing a particular problem

through a general interest project.

What are our objectives ?

Members are motivated by the same ideal:

Contribute to the advancement of the global community by offering new and concrete economic, social and cultural solutions ;

Encourage the acceptance of our civic responsibilities and encourage comprehension, and tolerance among all men and peoples ;

Provide the opportunity for members, particularly young people, to develop the leadership skills, social responsibility, entrepreneurship and fellowship necessary to create positive change.
